

Abstract

What's at Stake — The State-Level Perspective

Lindsay Emer, PhD

Wisconsin Department of Health Services, Milwaukee, WI

APHA 2025 Annual Meeting and Expo

This presentation will share a real-world perspective on how states rely on NVDRS data. It will discuss the consequences if the system were dismantled or funding cut — impacts on surveillance, prevention programming, and cross-sector collaboration. And it will include a brief story/case example.

Communication and informatics Public health or related public policy
